PROFILE

Digital media designer currently studying Innovative Multimedia Entertainment (IME) at The Hong Kong Polytechnic University. Interested in interactive media, digital content creation, and immersive experiences. Experienced in using Unreal Engine and various 3D tools to develop interactive projects, visual installations, and digital experiences. Aims to combine design, technology, and storytelling, with a particular interest in bringing digital technology and creative arts together across different media.

EXPERIENCE

SDGs-ART Intern Jul 2025
Centro Italiano di Ricerca sull'Educazione dei Giovani per l'UNESCO
- Studied the 17 UN Sustainable Development Goals and completed training in SDG-focused industrial and interaction design.

Visual Effects Director (Part-time) Sep 2024 – Mar 2025
Beijing Guangyingsha Digital Technology Co., Ltd.
- Led visual planning and core production for interactive digital-screen experiences in exhibition spaces.
- Coordinated 3D modelling, graphic design, AI with game engine and code; managed engine integration and visual direction.

Teaching Assistant, Film & Media Jul 2023 – Jan 2025
CAFA International College
- Taught Blender, After Effects, Premiere Pro, and basic graphic design software.
- Supported exhibition planning, technical setup, and digital equipment control; helped deliver three student exhibitions and screenings.

Photographer & Video Editor Jun – Sep 2022
Time Studio (Shi Guang Mei She)
- Shot, edited, and post-produced video content; designed layouts for art albums and portrait video projects.

SELECTED PROJECTS

Urban Heat Exposure Risk Jul 2025
Design Project (team work)
- Designed the Hot Scar Vest for outdoor workers and contributed to the overall system design for urban heat-risk response.

Firework Ruins May – Jul 2024
Independent Project
- Researched ways to manage post-firework waste and developed a digital-twin mini-program to show changes in waste levels and related risks.

From Signal to Civilization Dec 2023 – Apr 2024
Graduation Project
- Explored how traditional Chinese opera movements communicate emotion and culture; exhibited at Beijing Chaoyang Cultural Center.

Kunqu Opera Projection Exhibition Nov 2022
Projection-based Exhibition
- Created a projection-based exhibition that reimagined the historic theatre at Quanjin Guild Hall as the China Kunqu Opera Museum.

Interactive Video Installation 2022 – 2023
Independent Project
- Designed a four-mode interactive video installation; visuals changed in response to audience actions.
